

K-Love has served me during my high school, college, graduate study, and now young professional years. K-Love encourages me everyday as I am reminded by its positive songs. If K-Love were to be displayed, the community will lose a place to hear encouraging music, community and national news, as well as unable to listen via the internet and utilize the tools in the web site. K-Love has always been funded by the public, and it truly designs its programming for public interest. Thanks.
